Subject index

Acidic Se(IV)
Cathodic stripping voltammetry of HgSe (Mattsson et al.) 149
Anion effects
Effect of anions on the nucleation and growth mechanism of polyaniline (Córdova et al.) 75
Au electrodes
Investigation of the intermediates of the O_2 reduction reaction on Au electrodes in alkaline solution (Wu et al.) 227
Au(111) electrodes
An in-situ STM investigation of the underpotential deposition of Ag on Au(111) electrodes (Corcoran et al.) 85
Au/Ti
The preparation and characterization of gold coatings on titanium: the reduction of oxygen (Baez, Pletcher) 231

Benzalkonium chloride
Two-dimensional condensation of benzalkonium chloride at the mercury electrode and its relation to DNA imaging using scanning force microscopy (Jelen et al.) 197

Cage compounds
Cyclic voltammetry of cage compounds incorporated in Nafion® films on graphite electrodes (Jensen et al.) 131
Catalysis
Electrocatalysis of the formaldehyde oxidation at alloys of platinum with sp metals II (Stelmach et al.) 241
Catalytic molybdenum
Studies on the molybdenum/hydrazoic acid catalytic polarographic system in sulfuric medium (Bertotti, Tokoro) 287
Cathodic polarization
Study of the polymerization mechanisms of methacrylonitrile under cathodic polarization on a nickel electrode (Tanguy et al.) 115
Cathodic stripping
Cathodic stripping voltammetry of HgSe (Mattsson et al.) 149
Charge transport process
Color impedance spectroscopy of polypyrrole films (Amemiya et al.) 143
CO_2
Structural effects on CO_2 reduction at Pt single-crystal electrodes. Part 3. Pt(100) and related surfaces (Rodes et al.) 215
Coelectropolymerization
Mediatorless hydrogen peroxide electrode based on horseradish peroxidase entrapped in poly(*o*-phenylenediamine) (Deng, Dong) 191
Color impedance spectroscopy
Color impedance spectroscopy of polypyrrole films (Amemiya et al.) 143
Composite films
Electrochemical quartz crystal microbalance study of polypyrrole and tungstate polyanion composite films (Ohtsuka et al.) 107
Computer simulation
A network thermodynamic method for computer simulation of cyclic voltammetry (Horno et al.) 53
Condensation
Two-dimensional condensation of benzalkonium chloride at the mercury electrode and its relation to DNA imaging using scanning force microscopy (Jelen et al.) 197
Copper-zeolite
Copper-zeolite-modified electrodes: An intrazeolite ion transport mechanism (Li, Calzaferri) 163
Cyclic voltammetry
A network thermodynamic method for computer simulation of cyclic voltammetry (Horno et al.) 53
Cyclic voltammetry of cage compounds incorporated in Nafion® films on graphite electrodes (Jensen et al.) 131
Cytochrome c_3
Incorporation of cytochrome *c* and cytochrome c_3 within poly(ester-sulfonic acid) films cast on pyrolytic graphite electrodes (Bianco et al.) 299
Incorporation of cytochrome *c* and cytochrome c_3 within poly(ester-sulfonic acid) films cast on pyrolytic graphite electrodes (Bianco et al.) 299

Disc microelectrode
Second-order kinetics for steady state EC′ reactions at a disc microelectrode (Tutty) 39
DNA imaging
Two-dimensional condensation of benzalkonium chloride at the mercury electrode and its relation to DNA imaging using scanning force microscopy (Jelen et al.) 197

EC′ reactions
Second-order kinetics for steady state EC′ reactions at a disc microelectrode (Tutty) 39
EDXA
The preparation and characterization of gold coatings on titanium: the reduction of oxygen (Baez, Pletcher) 231
Electrocatalysis
Electrochemical behavior of nitromethane and its influence on the electro-oxidation of formic acid: an on-line MS study (Wasmus et al.) 205
Structural effects in electrocatalysis: oxygen reduction on platinum low index single-crystal surfaces in perchloric acid solutions (Marković et al.) 249
Electrochemical impedance spectroscopy
Theoretical formulation of the odd harmonic test criterion for EIS measurements (Diard et al.) 61
Electrochemical quartz crystal microbalance
Electrochemical quartz crystal microbalance study of polypyrrole and tungstate polyanion composite films (Ohtsuka et al.) 107
Electrochemical switching
Introduction of a percolation threshold potential at polyaniline-coated electrodes (Aoki, Kawase) 125

Electrochromism
Electrochromic phenomena in fullerene thin films (Córdoba de Torresi et al.) 283
Electrodeposition
Effect of anions on the nucleation and growth mechanism of polyaniline (Córdova et al.) 75
Electromodulated optical transmittance
Color impedance spectroscopy of polypyrrole films (Amemiya et al.) 143
Electro-oxidation
Electrochemical behavior of nitromethane and its influence on the electro-oxidation of formic acid: an on-line MS study (Wasmus et al.) 205
Electrocatalysis of the formaldehyde oxidation at alloys of platinum with sp metals II (Stelmach et al.) 241
Electroreduction
Structural effects on CO_2 reduction at Pt single-crystal electrodes. Part 3. Pt(100) and related surfaces (Rodes et al.) 215
Endothelial cells
The use of gold electrodes in the electrochemical detection of nitric oxide in aqueous solution (Bedioui et al.) 295
External reflection IR measurements
Modelling of a spectroelectrochemical cell with radial liquid flow for in situ external reflection IR measurements (Sundholm, Talonen) 91

Formaldehyde
Electrocatalysis of the formaldehyde oxidation at alloys of platinum with sp metals II (Stelmach et al.) 241
Formic acid
Electrochemical behavior of nitromethane and its influence on the electro-oxidation of formic acid: an on-line MS study (Wasmus et al.) 205
Fullerene films
Electrochromic phenomena in fullerene thin films (Córdoba de Torresi et al.) 283

Gas evolution electrode
Effect of hydrophobicity on the hydrophobic-modified polytetrafluoroethylene/PbO_2 electrode towards oxygen evolution (Ho, Hwang) 177
Glassy carbon electrodes
Characteristics of the electrochemical behaviour of glassy carbon in super-acid media (Grinberg, Kanevsky) 101
Gold electrode
Direct electron transfer between the covalently immobilized enzyme microperoxidase MP-11 and a cystamine-modified gold electrode (Lötzbeyer et al.) 291
Gold electrodes
The use of gold electrodes in the electrochemical detection of nitric oxide in aqueous solution (Bedioui et al.) 295

Harmonic test
Theoretical formulation of the odd harmonic test criterion for EIS measurements (Diard et al.) 61
HgSe
Cathodic stripping voltammetry of HgSe (Mattsson et al.) 149
Horseradish peroxidase
Mediatorless hydrogen peroxide electrode based on horseradish peroxidase entrapped in poly(*o*-phenylenediamine) (Deng, Dong) 191
Hydrazoic acid
Studies on the molybdenum/hydrazoic acid catalytic polarographic system in sulfuric medium (Bertotti, Tokoro) 287
Hydrophobic polytetrafluoroethylene/PbO_2
Effect of hydrophobicity on the hydrophobic-modified polytetrafluoroethylene/PbO_2 electrode towards oxygen evolution (Ho, Hwang) 177

Impedance
Effect of hydrophobicity on the hydrophobic-modified polytetrafluoroethylene/PbO_2 electrode towards oxygen evolution (Ho, Hwang) 177
Ion transport mechanism
Copper-zeolite-modified electrodes: An intrazeolite ion transport mechanism (Li, Calzaferri) 163

Kinetically controlled electrosorption
Numerical simulation of kinetically controlled electrosorption processes under cyclic voltammetric conditions (Szulborska, Baranski) 23

Low index
Structural effects in electrocatalysis: oxygen reduction on platinum low index single-crystal surfaces in perchloric acid solutions (Marković et al.) 249

Mass spectroscopy
Electrochemical behavior of nitromethane and its influence on the electro-oxidation of formic acid: an on-line MS study (Wasmus et al.) 205
Mass transport
Cyclic voltammetry of cage compounds incorporated in Nafion® films on graphite electrodes (Jensen et al.) 131
Mathematical model
Three-dimensional electrochemical phase formation (Isaev, Baraboshkin) 33
Mediatorless H_2O_2 electrode
Mediatorless hydrogen peroxide electrode based on horseradish peroxidase entrapped in poly(*o*-phenylenediamine) (Deng, Dong) 191
Methacrylonitrile
Study of the polymerization mechanisms of methacrylonitrile under cathodic polarization on a nickel electrode (Tanguy et al.) 115
Microperoxidase MP-11
Direct electron transfer between the covalently immobilized enzyme microperoxidase MP-11 and a cystamine-modified gold electrode (Lötzbeyer et al.) 291
Modified electrodes
Copper-zeolite-modified electrodes: An intrazeolite ion transport mechanism (Li, Calzaferri) 163

Nafion film
Cyclic voltammetry of cage compounds incorporated in Nafion® films on graphite electrodes (Jensen et al.) 131
Network thermodynamic method
A network thermodynamic method for computer simulation of cyclic voltammetry (Horno et al.) 53
Ni electrodes
Study of the polymerization mechanisms of methacrylonitrile under cathodic polarization on a nickel electrode (Tanguy et al.) 115
Nitric oxide
The use of gold electrodes in the electrochemical detection of nitric oxide in aqueous solution (Bedioui et al.) 295
Nitromethan
Electrochemical behavior of nitromethane and its influence on the electro-oxidation of formic acid: an on-line MS study (Wasmus et al.) 205

Non-linear model
Second-order kinetics for steady state EC′ reactions at a disc microelectrode (Tutty) 39
Nucleation and growth
Three-dimensional electrochemical phase formation (Isaev, Baraboshkin) 33
Effect of anions on the nucleation and growth mechanism of polyaniline (Córdova et al.) 75
Numerical methods
Second-order kinetics for steady state EC′ reactions at a disc microelectrode (Tutty) 39

O_2 reduction
Investigation of the intermediates of the O_2 reduction reaction on Au electrodes in alkaline solution (Wu et al.) 227
Oxygen evolution
Effect of hydrophobicity on the hydrophobic-modified polytetrafluoroethylene/PbO_2 electrode towards oxygen evolution (Ho, Hwang) 177
Oxygen reduction
The preparation and characterization of gold coatings on titanium: the reduction of oxygen (Baez, Pletcher) 231
Structural effects in electrocatalysis: oxygen reduction on platinum low index single-crystal surfaces in perchloric acid solutions (Marković et al.) 249

Percolation threshold potential
Introduction of a percolation threshold potential at polyaniline-coated electrodes (Aoki, Kawase) 125
Photoreduction
Kinetic studies using the quartz microbalance technique on the photoreduction of polyaniline film containing TiO_2 particles (Kuwabata et al.) 261
Platinum alloys
Electrocatalysis of the formaldehyde oxidation at alloys of platinum with sp metals II (Stelmach et al.) 241
Polyaniline
Effect of anions on the nucleation and growth mechanism of polyaniline (Córdova et al.) 75
Polyaniline-coated electrodes
Introduction of a percolation threshold potential at polyaniline-coated electrodes (Aoki, Kawase) 125
Polyaniline film
Kinetic studies using the quartz microbalance technique on the photoreduction of polyaniline film containing TiO_2 particles (Kuwabata et al.) 261
Poly(ester-sulfonic acid)
Incorporation of cytochrome *c* and cytochrome c_3 within poly(ester-sulfonic acid) films cast on pyrolytic graphite electrodes (Bianco et al.) 299
Polymerization mechanisms
Study of the polymerization mechanisms of methacrylonitrile under cathodic polarization on a nickel electrode (Tanguy et al.) 115
Poly(*o*-phenylenediamine)
Mediatorless hydrogen peroxide electrode based on horseradish peroxidase entrapped in poly(*o*-phenylenediamine) (Deng, Dong) 191
Polypyrrole films
Color impedance spectroscopy of polypyrrole films (Amemiya et al.) 143
Potential step coulometry
Investigation of the intermediates of the O_2 reduction reaction on Au electrodes in alkaline solution (Wu et al.) 227

Pt(100) electrode
Structural effects on CO_2 reduction at Pt single-crystal electrodes. Part 3. Pt(100) and related surfaces (Rodes et al.) 215
Pt surface
Structural effects in electrocatalysis: oxygen reduction on platinum low index single-crystal surfaces in perchloric acid solutions (Marković et al.) 249

Quartz microbalance
Kinetic studies using the quartz microbalance technique on the photoreduction of polyaniline film containing TiO_2 particles (Kuwabata et al.) 261

Randles-Sevčik plots
Cyclic voltammetry of cage compounds incorporated in Nafion® films on graphite electrodes (Jensen et al.) 131
Reaction mechanism
Effect of hydrophobicity on the hydrophobic-modified polytetrafluoroethylene/PbO_2 electrode towards oxygen evolution (Ho, Hwang) 177

Scanning force microscopy
Two-dimensional condensation of benzalkonium chloride at the mercury electrode and its relation to DNA imaging using scanning force microscopy (Jelen et al.) 197
Scanning tunneling microscopy
An in-situ STM investigation of the underpotential deposition of Ag on Au(111) electrodes (Corcoran et al.) 85
SEM
The preparation and characterization of gold coatings on titanium: the reduction of oxygen (Baez, Pletcher) 231
Silver
An in-situ STM investigation of the underpotential deposition of Ag on Au(111) electrodes (Corcoran et al.) 85
Solvent contribution
Solvent contribution to the capacitance and solvent orientation at an uncharged electrode: Part II, analysis of experimental data (Amokrane et al.) 9
Solvent orientation
Solvent contribution to the capacitance and solvent orientation at an uncharged electrode: Part II, analysis of experimental data (Amokrane et al.) 9
Specific surface energy
Problems related to the specific surface energy of solid electrodes (Láng, Heusler) 1
Spectroelectrochemical cell
Modelling of a spectroelectrochemical cell with radial liquid flow for in situ external reflection IR measurements (Sundholm, Talonen) 91
Steady state kinetics
Second-order kinetics for steady state EC′ reactions at a disc microelectrode (Tutty) 39
Structural effects
Structural effects on CO_2 reduction at Pt single-crystal electrodes. Part 3. Pt(100) and related surfaces (Rodes et al.) 215
Super-acid media
Characteristics of the electrochemical behaviour of glassy carbon in super-acid media (Grinberg, Kanevsky) 101
Surface geometry
Structural effects in electrocatalysis: oxygen reduction on platinum low index single-crystal surfaces in perchloric acid solutions (Marković et al.) 249
Surface structure
An in-situ STM investigation of the underpotential deposition of Ag on Au(111) electrodes (Corcoran et al.) 85

Thioglycol adsorption
Kinetics and thermodynamics of thioglycol adsorption on mercury ultramicroelectrodes (Szulborska, Baranski) 269
Three-dimensional electrochemical phase
Three-dimensional electrochemical phase formation (Isaev, Baraboshkin) 33
TiO_2 particles
Kinetic studies using the quartz microbalance technique on the photoreduction of polyaniline film containing TiO_2 particles (Kuwabata et al.) 261
Ultramicroelectrodes
Kinetics and thermodynamics of thioglycol adsorption on mercury ultramicroelectrodes (Szulborska, Baranski) 269
Underpotential deposition
An in-situ STM investigation of the underpotential deposition of Ag on Au(111) electrodes (Corcoran et al.) 85
Voltammetry
The preparation and characterization of gold coatings on titanium: the reduction of oxygen (Baez, Pletcher) 231
